

Did Bitwise Steal His Company? Real Estate Tech Founder Files Suit.

When Chase Carter partnered with Bitwise, he thought he would grow his app geared toward real estate agents. Instead, he says he lost his job and lost control of his creation. Now he's suing the foundering tech company and seeking \$20 million in damages.

Chavez, Karbassi Seek City Funding for Cameras to Combat Retail Theft

The two councilmembers want the city to spend \$100,000 on a pilot program to install cameras at local retail businesses that can be viewed by the Fresno Police Department's Real Time Crime Center. Their proposal is patterned after a similar program that has seen success in Detroit.

Clovis Council Struggles but Sets the Price on Paying for Future Growth

In a unanimous vote, councilmembers raised builder fees to support infrastructure across the city. The council took action on the fees even though the president of the local Building Industry Association asked them to wait until the effect of the proposed fee hikes could be examined more closely.

California's Competitive Edge Is Declining. New Report Makes It Clear.

While the state's critics and defenders cite isolated anecdotes and data points to bolster their arguments, there have been very few comprehensive and objective examinations of California's strengths and weaknesses vis-à-vis its rivals. Until now.
